

## What is AKUVO ProAct?

AKUVO ProAct provides access to your portfolio with 360-degree views across a multitude of cross-sections. Manage loan performance, strategy, and expected loss withholding.

ProAct addresses fundamental issues affecting credit unions' need to manage their loan portfolios and associated risk.

It also helps credit unions monitor portfolio growth, delinquency, charge-off, credit score migration, tier attribution, yield, real estate coverage and projected loan loss.

## AKUVO ProAct Return on Investment

ProAct provides a multiple return on investment by addressing key areas of focus in technology, reporting and business intelligence.

- Data warehousing solution
- Streamlined, customized reporting functionality
- Tools to quantify projected risk and loan loss, including CECL
- Ease the compliance burden – time, personnel and follow-up
- Transparent loan information and robust analytics for decisioning
- Minimize staff oversight on data management
